Prosem Gea

FEATURES		
Quantity of rows	8	12
Rows spacing	70-75 cm	45 cm
Working width	4'90m at 70cm of row spacing 5'25m at 75cm of row spacing	5,40 meters
Transport width	3 meters	3 meters
Transport wheels	2 x 12.5/80-15.3	
Drive wheels	2 x 320/60-12	
Seed hopper capacity	50 litres	
Mecanical turbine PTO driven		
Available in K, P and Elektra versions		

The Prosem GEA is a versatile and powerful machine. Its innovative transport system with hydraulic folding frame allows to run by the road with just 3m wide and reach 5,25 meters of working width. It can be equipped with a hopper for fertilizer with 1.360 litres capacity that turns it into a high performance planter regarding the tractor power requirement. Its frame gives a very high maneuverability that allows to get a very small turning radius.

OPTIONS

ELECTRIC DRIVE FOR ROW UNITS AND FERTILIZER HOPPERS WITH ISOBUS CONNECTION

RESIDUAL ROW CLEANERS WITH PARALLOGRAMS

MICRO FERTILIZER ATTACHMENT

Mechanical	8 Rows	4 Hoppers x 28 Litres each one
	12 Rows	6 Hoppers x 28 Litres each one
Electrical	1 Centralized hopper 185 litres	

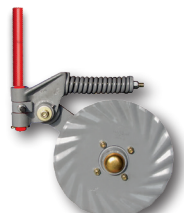

FERTILIZER ATTACHMENT

Fertilizer hopper with 1360 litres capacity made of stainless steel and double disc fertilizer coulters.

ELECTRONIC PLANTING CONTROL SYSTEM

NO TILL COULTERS

TRACK ERASERS

HYDRAULIC BRAKES
